WatchGuard | BRALIN technology solutions

SOLUTION BRIEF

Secure Everything. Simplify Everything.

Firebox +FireCloud:UnifiedSecurity for the Hybrid Workforce

Protect Every User, Every Application, Every Network

Today's organizationsno longer live inside the fourwallsofthe office. Networks extend to the cloud, employees connect from anywhere, and data flows across hybrid environments. Securing this complexity has traditionally meant stitching together multiple tools and hoping they work together to keep attackers out. Sadly, recent headlines have shown us they do not.

With Firebox and FireCloud, WatchGuard eliminates the complexity and closes the gaps that attackers target. Together, they deliver:

- **Comprehensive Coverage**
  Firebox secures the network; FireCloud secures remote users and their access to the Internet, cloud, and private applications. Combined, they protect everything that matters.

- **Consistent Policies & Management**
  One interface, a unifiedpolicy framework,one source of truth. Easy to manage, simple to enforce.

- **Faster Deployment**
  Deploy in hours, not weeks.Simple setup without legacy remote-access complexity.

- **Adaptable for Growth**
  As networks and workforcesevolve, Firebox + FireCloud scale without disruption.

Unified Security Without Compromise

Firebox + FireCloud are designedwithoutcomesinmind. For IT leaders, security teams, and business decision-makers, the results are clear:

- **Protect Users Everywhere**
  Zero trust access ensures employees only reach what they need, reducing risk while enabling productivity.

- **Accelerate Business Growth**
  Securely support hybrid workforces, cloud adoption, and digital transformation without hesitation.

- **Protect Sensitive Applications**
  ZTNA (Zero Trust Network Access) ensures that private applications are never exposed to the Internet and prevents lateral movement.

- **Future-Proof Defenses**
  Continuous updates, AI-driven detection, and integrated threat intelligence keep you ahead of modern threats.

- **Streamline IT Operations**
  Cloud-native management reduces overhead, simplifies reporting, and minimizes day-to-day workload.

The Complete Solution Customers Want and Partners Need

Hybrid security is no longer optional, it's essential. With Firebox and FireCloud, organizations gain end-to-end protection, while partners gain a solution designed for recurring revenue, operational efficiency, and customer loyalty.

> Protect Users Everywhere
Zero trust access ensures employees only reach what they need, reducing risk while enabling productivity.

> Accelerate Business Growth Securely support hybrid workforces, cloud adoption, and digital transformation without hesitation.

> Protect Sensitive Applications ZTNA assures that private applications are never exposed to the Internet and prevents lateral movement.

> Future-Proof Defenses Continuous updates, AI-driven detection, and integrated threat intelligence keep you ahead of modern threats.

About WatchGuard

WatchGuard® Technologies, Inc. is a global leader in unified cybersecurity. Our Unified Security Platform® approach is uniquely designed for managed service providers to deliver world-class security that increases business scale and velocity while improving operational efficiency. Trusted by more than 17,000 security resellers and service providers to protect over 250,000 customers, the company's award-winning products and services span network security and intelligence, advanced endpoint protection, multi-factor authentication, and secure Wi-Fi. Together, they offer five critical elements of a security platform: comprehensive security, shared knowledge, clarity & control, operational alignment, and automation. The company is headquartered in Seattle, Washington, with offices throughout North America, Europe, Asia Pacific, and Latin America. To learn more, visit WatchGuard.com
